

## 2021 Interprofessional Leadership Development Program (ILDP)

### *After the Disruptive Events of 2020: The Leaders Role in Creating the Future of Interprofessional Education and Collaborative Practice*

**June 8-10, 2021  
Virtual**

#### **Agenda**

The impact of 2020 will be long lasting. Some disruptions will lead to permanent change in higher education and in health professions education. The 2021 IPEC Interprofessional Leadership Development Program (ILDP) will explore this impact through three lenses: the future of interprofessional education and collaborative practice (IPECP); making the case for IPECP after the events of 2020; and human flourishing in a world with a new perspective on diversity, equity, and inclusion.
